### **Scope of Work**

The services to be provided by the Provider are related to the SMARTER training school which will take place between the 27<sup>th</sup>-30<sup>th</sup> March 2023 in Toulouse (France). These services involve participation in a Challenge Session and a Survey which will directly contribute to the advancement of the project. The specifics of the tasks are detailed below:

- a. **Challenge session:** The Provider will work on unused datasets made available by the SMARTER consortium. He/she will undertake analyses on these datasets with the models studied throughout the training school, providing an evaluation and feedback of the model performance.
- b. **Survey:** The Provider will be required to complete the survey relevant to WP7 designed in SMARTER to collect the stakeholder’s preferences for resilience, efficiency, health or production traits when it comes to the ideal animal to breed. The data collected from the provider will be used in the WP7 final analysis, alongside the farmer data. The aim is to understand how professionals are trained and aware of up to date knowledge on genetic selection challenges and techniques, in comparison with farmers’ preference profiles.
