

You're invited

Wednesday 7th December, Roslin Research Institute

Showcasing Smarter Sheep Science

A collaborative event organized by SRUC, The Texel Sheep Society, University of Edinburgh and AbacusBio UK to showcase the latest research in the sheep sector.

**Speakers from across the world addressing key issues
in sheep farming including;**

Lamb survival

Genomic evaluations

International evaluations for sheep

Methane and greenhouse gas emissions

Setting breeding goals and index development

The economic and environmental impact of genetic improvement
